

## CAREER OBJECTIVE

To craft intelligent and scalable software solutions by blending innovation with problem-solving, while continuously evolving as a developer in a dynamic tech environment.

## EDUCATION

**Bachelor of Engineering in Computer Science and Engineering (2022 - 2026)**

**Diploma (2020-2023) Percentage: 93%**

**Secondary School Leaving Certificate (2019-2020) Percentage: 69%**

## PROJECTS

### **Barber Shop Management System ReactJS, NodeJS, Tailwind CSS, PostgreSQL**

- Developed a comprehensive appointment booking system that allows customers to schedule haircuts and grooming services seamlessly.
- Integrated dynamic pricing functionality, displaying service costs based on the selected category.
- Implemented user authentication and role-based access, enabling barbers to manage appointments and administrators to oversee staff schedules.
- Designed a responsive and visually appealing UI using Tailwind CSS and ReactJS, enhancing the user experience.
- Built a secure backend with Express.js and PostgreSQL, ensuring efficient data management and real-time updates.

### **Transport Management System | Java, Spring Boot, Hibernate, MySQL, React.js**

- Developed an automated transport scheduling and tracking system, optimizing fleet management and reducing delays.
- Implemented role-based access control, enabling administrators to manage routes, drivers, and vehicle details securely.
- Integrated real-time tracking and reporting, improving operational efficiency by 25%.

- Designed a responsive user interface with React.js and Tailwind CSS for seamless booking and management.
- Built a robust backend using Spring Boot and Hibernate, ensuring secure data handling and performance.

### **Employee Management System | ReactJS, NodeJS, Tailwind CSS, PostgreSQL**

- Developed a centralized platform to manage employee records, attendance, and payroll efficiently.
- Implemented role-based authentication, allowing admins to oversee staff details and employees to track their data.
- Designed a responsive and user-friendly interface using ReactJS and Tailwind CSS for seamless navigation.
- Built a secure backend with Express.js and PostgreSQL, ensuring reliable data storage and management.
- Integrated email notifications for important updates like leave approvals and salary processing.

### **TECHNICAL SKILLS**

- **Languages:** JavaScript, HTML, Python, Java , C
- **Frameworks:** React.js, Node.js, Express.js
- **Database:** PostgreSQL, MySQL
- **Developer tools:** Git, VS code

### **AREAS OF INTEREST**

- Full-Stack Development
- UI &UX Design

### **SOFT SKILLS**

- Teamwork
- Time management
- Communication
- Self Learning
